## ABOUT

3 years of experience building web applications autonomously, I also have experience working with multidisciplinary technology-oriented teams.

## EXPERIENCE

### Círculo CRM, São Paulo— *CRM Tech Lead*

JUN 2022 - PRESENTE

Lead a team focused on Salesforce development and cross-platform integration, using mainly Node, Typescript, MongoDB, and native Salesforce languages.

### Círculo CRM, São Paulo— *Front end Júnior*

DEC 2021 - JUNE 2022

Development of Landing Pages and HTML email marketing. Using mostly HTML, CSS, React and Node.

### Free Lancer, Rio de janeiro — *Free Lancer*

PRESENT

Development and maintenance of a management application for Óticas da Minha Família. Node, React, EJS, React Native. Project currently in use and in escalation.

## EDUCATION

### CELC, Rio de Janeiro — *Técnico em Ciências da Computação*

JAN 2015 - DEC 2017

I gained a solid foundation in computer science and technology concepts such as programming languages, data structures and web development.

I learned my first programming languages: Pascal, C, Java.

I developed problem-solving and critical thinking skills through hands-on projects and assignments.

I developed the ability to communicate complex technical ideas to both technical and non-technical audiences.

## SKILLS

React.JS, Gatsby.js, Next.js.

Node.js, Express, MongoDB, Native Base.

Typescript, Javascript, Python, C.

## ME

I had my first contact with the computing world at the age of 12, when I took a game development module. At 15 I started programming in technical high school and fell in love with this world. In recent years I've been studying a lot of web development, and I've managed to develop some really cool projects, where I've been able to exercise my learning a lot, in addition to helping me financially. I love computing, especially the philosophical side, the simple fact that computing is possible in the universe already fascinates me. I'm passionate about everything.
